EXPERIENCE

Full Stack Developer (Internship)

Pravinya Infotech

Jan. 2024 – May 2024

Hubli, India

EDUCATION

B E Electronics & Communication Engineering

KLE Technological University

Jan. 2020 – June 2024

Hubli, India

PROJECTS

DocHub | *NextJS, Typescript, Liveblocks, Lexical Editor, Clerk*

[Code](#) 

- A real-time collaborative document editing platform using Next.js, TypeScript, and Liveblocks, with secure authentication through Clerk, supporting Google sign-in.
- Integrated comprehensive document management features, including creating, deleting, sharing, and organizing documents with real-time collaboration, comments, and presence indicators.
- Ensured a responsive and scalable design using Tailwind CSS, delivering seamless user experiences across devices and optimized code reusability.

Peekaboo | *NextJS, Typescript, Stream, Clerk*

[Code](#) 

- A video conferencing platform using Next.js, TypeScript, and Stream, featuring secure authentication (Clerk), real-time meetings, and robust participant controls like recording, screen sharing, and emoji reactions.
- Integrated scheduling and meeting management features, including quick start, future meeting scheduling, past meeting history, and recording access, all accessible through a user-friendly interface with Tailwind CSS.
- Ensured responsive design and data security, supporting seamless device adaptability, social sign-ons, and real-time functionality for an optimized user experience.

Reality Endeavors | *MongoDb, Express, React, NodeJs, Firebase*

[Code](#) 

- A modern real estate marketplace using the MERN stack (MongoDB, Express.js, React.js, Node.js) for scalable data management.
- Implemented secure user authentication with JWT and FirebaseAuth, enhancing access control and user personalization.
- Integrated Redux Toolkit for efficient state management, supporting full CRUD operations for property listings, including creation, management, and advanced search functionality.

SKILLS

Technical Skills MongoDB, Express.js, React.js, Next.js, TypeScript, Python, Git, Deep Learning, Jetson, GitHub, Firebase, Clerk, Tailwind CSS, HTML, CSS, JavaScript

Soft Skills Adaptability, Teamwork, Time Management, Communication
